VEHICLE SCALE INFORMATION

Physical Address of Vehicle Scale:

Directions To Scale:

County:

Make of Scale:

Model Number of Scale:

Scale Serial Number:

Indicator Serial Number:

* CC Numbers (Certificate of Conformance) for Scale:

Capacity of Scale marked on the indicator in tons:

Length of scale deck in feet:

* Scales installed after January 1, 2003 must be marked with a Certificate of Conformance Number (CC). You can also locate CC numbers by using the certificate of conformance search on the NCWM website: <http://ncwm.net/certificates> or contact a service company or the manufacturer.

If scale was operated commercially before January 1, 1997 provide name of previous operator: State ID number (under which device was licensed) or copies of invoices or bills of lading demonstrating commercial use of device.

ANNUAL PRIVATE TESTING REQUIREMENT

Commercial scales with a capacity of 5,000 pounds or more must be tested annually for accuracy (Wis. Adm. Code ATCP § 92.30(7)) by a service company licensed under Wis. Adm. Code ATCP 92.20(1). If an initial annual test shows that a scale is inaccurate, the scale may not be used until a licensed service company corrects the problem, retests the scale, and delivers a written report to the scale owner or operator verifying the scale is accurate. The owner or operator of a vehicle scale shall file with the department a copy of each report prepared in connection with the annual testing of that scale within 30 days of the test. Failure to send the test report within 30 days will result in \$200 testing surcharge that you must pay before a license will be issued. Failure to pay the surcharge within 120 days you receive the invoice may result in suspension or revocation of your license.

Attach a copy of the most recent test report from a licensed service company to this application. The test needs to have been conducted within the previous 12 months.

Incomplete applications will not be processed. Please double check your application to avoid delays.

Check this box if the vehicle scale is portable, intended to be moved, and not permanently installed.
